

COURSE REGISTRATION FORM

“WOUND SUTURE TECHNIQUES”

Course Manager: Prof. A. Pietrabissa

The course is divided into different sessions depending on the received registration requests. Each session (1 hour) will include a brief theoretical introduction, a practical exercise where the student will be able to simulate suturing and surgical knots procedures and a final debriefing moment. The course will be held during the second semester of 2024 at the Clinical Simulation Laboratory of the Campus della Salute of the University of Pavia. The maximum number of students for each simulation session is 30. The final calendar will be provided according to the number of received registration requests.

To express your interest in participating, please fill this form:

Name & Surname: _____

University Number: _____

University Course:

- Golgi
- Harvey

N.B. During the course, educational material under patenting will be shown. Together with this registration form, each student must therefore deliver the attached Confidentiality Agreement (NDA), duly filled and signed.
